SURYANSH Mishra

Computer Science Student

About Me

Passionate full stack developer and programmer with strong skills in Python, C, C++, JavaScript, HTML, CSS, and SQL. Experienced in building full-stack applications, game projects, and algorithm visualizers. Proficient in frameworks like Flask, Django, React, and TensorFlow. Completed a 30-day Python challenge and participated in multiple hackathons. Worked on AI/ML projects including image recognition, sentiment analysis, and recommendation systems using scikit-learn, Keras, and PyTorch. Focused on writing clean, efficient code and continuously expanding technical skills.

Skills:

- Full Stack Development
- Machine Learning
- Problem Solving
- API Integration
- Data Structures & Algorithms
- Version Control (Git/GitHub)
- Frameworks (React, Django, Flask, TensorFlow)
- Database Management (SQL/NoSQL)
- Deployment

Language:

- C
- C++
- Python
- HTML
- CSS
- Javascript
- SQL

Education:

Bachelor of Technology in Computer Science
- UPES

Minor in AI/ML
- IIT Ropar

Professional Experience:

Full Stack Developer (Freelance)

June 2022 - May 2024

- Developed and delivered end-to-end web applications for clients, enhancing functionality and user experience across platforms.
- Built responsive and interactive front-end interfaces using HTML, CSS, JavaScript, and React to ensure seamless user engagement.
- Implemented scalable back-end architectures using Node.js, Python (Flask/Django), and SQL, optimizing performance and data flow.
- Designed and integrated RESTful APIs, managed relational databases, and ensured mobile responsiveness across devices.
- Maintained clean, maintainable code using Git for version control, ensuring timely and efficient project delivery.

Data Analyst

May 2025 - July 2025 | Dreamweave

- Managed and organized large volumes of candidate and recruitment data to improve accessibility and reduce processing time.
- Cleaned, sorted, and enhanced raw datasets, ensuring data accuracy, consistency, and reliability for reporting and analysis.
- Analyzed trends and patterns in hiring metrics to support informed decision-making for recruitment strategies.
- Collaborated with the recruitment team to deliver actionable insights through data visualization and structured reports.
- Maintained data integrity across platforms and contributed to streamlining the agency's data handling processes.
